CONSUMER BEHAVIOR 2022

15th Edition | July 2021 | ISBN: 9781577832959 | ISSN: 2380-8268 | 349 pages | \$385.

Consumer spending accounts for 70% of the U.S. gross domestic product, or over \$11.6 trillion. *Consumer Behavior 2022* assesses how this spending is distributed and the consumer behaviors that affect spending.

Consumer Behavior 2022 presents dozens of surveys analyzing consumer spending characteristics, behavioral responses, and preferences. Easy-to-read summaries of current research and other information useful for retailers, marketers, advertisers, and business consultants are presented. While there are other publications focusing on general consumer behavioral topics, *Consumer Behavior 2022* is the only resource that integrates the full spectrum of applied consumer psychology, demographics, and purchasing influences with major consumer surveys. Over 850 embedded website links will direct you to raw data, additional market research, and other resources.

CONSUMER USE OF THE INTERNET & MOBILE 2022

6th Edition | July 2021 | ISBN: 9781577833123 | ISSN: 2472-4874 | 164 pages | \$385.

RKMA first wrote about the Internet (then called Arpanet) in 1984. *Consumer Use of the Internet & Mobile* continues our assessment of the sector.

Providing insight into the 230 million U.S. adult Internet users, *Consumer Use of the Internet & Mobile 2022* assesses online activities and content, e-commerce spending, mobile access to the web, apps, and more.

Internet and mobile-media market data are scattered throughout a myriad of sources. This handbook compiles top-line consumer Internet use and expenditure data into a single easy-to-use reference, with information sourced from top research organizations. Market data is presented along with analyses of trends and projections on how Internet use will evolve. The handbook also assesses mobile Internet access and apps.

Select topics include accuracy of online information, blogs, consumer reviews, digital music, digital video, gaming, photo sharing, privacy concerns, security concerns, social media user demographics, and the Internet of Things.

Among the statistics presented are monthly traffic visits for over 3,500 consumer websites.

Along with top-line data, the handbook provides over 1,200 links to additional resources for more in-depth assessments.

Consumer Use of the Internet & Mobile Web 2022 serves as both a strategic planning guide for business executives in all sectors, from portals and content developers to marketers and researchers, as well as a comprehensive reference for academic libraries.
